## **DETAILED ACTION**

## Allowable Subject Matter

1. Claims 2, 5, 8-9, and 11 are allowed.

2. The following is an examiner's statement of reasons for allowance: This invention deals with a structure for connecting an electrical connector to a cable, wherein the core conductors of the cable cores are exposed by peeling a leading end of the cable, wherein the structure comprises a dielectric member made from a porous resin material having a dielectric constant of 1.5-4.5, wherein the dielectric member contains an air filled cavity housing (claim 2). The above stated claim limitations, in combination with other claim limitations, is not taught or suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Response to Arguments

3. Applicant's arguments filed February 10, 2006 have been fully considered and they are persuasive. Specifically, the applicants argument that none of the prior art teaches a dielectric member made from a porous resin material having a dielectric

constant of 1.5-4.5 and containing an air filled cavity housing" is persuasive and therefore the claims have been allowed.

## Communication

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to William H. Mayo III whose telephone number is (571)-272-1978. The examiner can normally be reached on M-F 8:30am-6:00 pm (alternate Fridays off).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dean Reichard can be reached on (571) 272-2800 ext 31. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
